But I feel that technology is more boon than bane. It’s up to us to decide whether we can survive without modern technology or continue to use it by paying a heavy price for it. When we say technology is dominating our life, in a sense we are allowing it to do so.

Technology: Boon or Bane? - PHDessay.com
Selenium resembles sulfur (S) chemically and shares a similar pathway for uptake and translocation in plants. For example, SeO 3 2? and SeO 4 2? are analogs of SO 3 2? and SO 4 2?, respectively.Therefore, they can compete with each other in acidic conditions (Golob et al., 2016; González-Morales et al., 2017).Among the Se species, SeO 4 2? uses SO 4 2? transporters of the root ...

Selenium in plants: Boon or bane? - ScienceDirect
First of all I am going to assume that boon is in the yes column. Science is fundamentally neutral - whether it is good or bad is dependent upon the people creating it and ultimately using it. The vast majority of science is done for science's sake, for the 'advancement' of humanity and therefore on the whole can be thought of as good.

Why is science a bane? - Quora
science a boon or bane 1. Science from Latin scientia, meaning "knowledge“[is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe In an older and closely related meaning, "science" also refers to a body of knowledge itself, of the type that can be rationally explained and reliably applied.
