Four-column accounts are more common than two-column accounts. The purpose the additional columns is to keep running balances of both debits and credits in the four-column account. four-column accounts must show their account number and name, year and month, right at the very top of each page. Four-columns accounts are the most convenient.

Turn to the Cash page of your ledger. In the left column (which is used for recording debits), write the date of the transaction, and then write the amount. In this example, the amount is \$500. Turn to the Accounts Receivable page of your ledger. Write the date in the right column (which is used for credits), followed by the transaction amount.
