An 8.55 mol sample of methanol, CH_3OH , is placed in a 15.0 L evacuated rigid tank and heated to 327°C .

2012 AP CHEMISTRY FREE-RESPONSE QUESTIONS

The free-response section of the AP Chemistry exam seems intimidating because it's longer than free-response sections on most other AP tests, and it includes lots of calculations and experiments that you have to interpret. The most important thing you can do is remain calm and stay focused and methodical in your approach to each question.

AP Chemistry FRQ: How to Ace the Free Response Questions

The AP Chemistry Exam covers a full-year introductory college course in chemistry with laboratory. The multiple-choice questions in Section I cover the breadth of the curriculum. Section II, the free-response part of the exam, includes three quantitative problems, one question on writing chemical reactions and predicting products, and two essays.
