Based on White Rose Hub scheme, multiplication ... Monday-HA-MA-Arrays. docx, 992 KB. Monday-LA-Arrays. About this resource. Info. Created: Jan 23, 2018.

Arrays, Year 2 worksheets, differentiated 2 ways ...

Learn to multiply using arrays. An array is a group of shapes arranged in rows and columns. Rows run left and right and columns go up and down. You can write...

Array Multiplication (Array Math) - YouTube

Solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher Here, you will find a range of worksheets to support the use of concrete objects, pictorial representations and arrays to solve one-step multiplication and division problems.

One-Step Multiplication and Division Problem-Solving Year 1

Using Arrays to Show Multiplication Concepts: Overview Students can more readily develop an understanding of multiplication concepts if they see visual representations of the computation process. For example, they can picture students in a marching band arranged in equal rows or chairs set up in rows in an auditorium.

Grade 3: Arrays to Show Multiplication Concepts: Overview

Part 1 is a single array (5 x 12). Students might use the distributive property and solve the problem or 5 x 10 + 5 x 2 (partitioning 12) or 5 x 6 + 5 x 6. Some may re-untilise two fives as ten to create 6 x 10. These strategies are strongly multiplicative.

Arrays hooray | NZ Maths

1. Multiplication arrays make it easy to visualize multiplication problems. Hands-on objects are great for introducing multiplication, but they can be a bit of a pain when you're doing a lot of problems or working with larger numbers. With a paper dot array, you can slide an L-shaped cover over the top of the array and show any multiplication fact you want from 1 x 1 up to 10 x 10.

How to Use a Multiplication Array ... - Homeschool Math Help

Group Activities-- Work out all multiplication facts for various arrays.-- Play an online array game, suggesting the multiplication facts before revealing them. Day 2 Teaching Show 6 x 3 as an array: 6 lots of 3 dots. On a beaded line, draw 6 hops of 3 to show that if we count in 3s we get to 18. Six 3s are 18. Record 6 x 3 = 18.

Multiplication and Division (A) | Hamilton Trust

Using arrays is a great way for students to solve multiplication facts. Arrays are equal groups of rows and columns. The first factor in the multiplication s...

Solving Multiplication Facts with Arrays - YouTube

Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. Here, you will find a range of teaching resources to enable year 2 students to solve problems involving multiplication and division, using materials, arrays, repeated addition and mental methods.
