Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Includes alternate problem-solving strategies, supplemental explanations, 400 worked examples, and 800 self-practice tests designed to help students master text material.

Contains discussion, illustrations, and exercises aimed at overcoming common misconceptions; emphasizes on models prevails; and covers topics such as: chemical foundations, types of chemical reactions and solution stoichiometry, electrochemistry, and organic and biological molecules.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Study more effectively and improve your performance at exam time with this comprehensive guide. The study guide includes: chapter summaries that highlight the main themes, study goals with section references, solutions to all textbook Example problems, and over 1,500 practice problems for all sections of the textbook. The Study Guide helps you organize the material and practice applying the concepts of the core text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Contains fully worked-out solutions to all of the odd-numbered exercises in the text, giving you a way to check your answers.

REA's Crash Course for the AP* Chemistry Exam - Gets You a Higher Advanced Placement* Score in Less Time Completely Revised for the New 2014 Exam! Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement* Chemistry exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP* Chemistry is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Fully revised for the 2014 AP* Chemistry exam, this Crash Course is based on an in-depth analysis of the revised AP* Chemistry course description outline and sample AP* test questions. It covers only the information tested on the new exam, so you can make the most of your valuable study time. Our targeted review focuses on the Big Ideas that will be covered on the exam. Explanations of the AP* Chemistry Labs are also included. Expert Test-taking Strategies This Crash Course presents detailed, question-level strategies for answering both the multiple-choice and essay questions. By following this advice, you can boost your score in every section of the test. Take REA's Online Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP* exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP* Chemistry student must have. When it's crucial crunch time and your Advanced Placement* exam is just around the corner, you need REA's Crash Course for AP* Chemistry!

Explains the basic principles of organic chemistry and provides help with reactions, synthesis, mechanisms, spectra, reagents, and study methods.
