Food, water and society:
what is managed by whom, and
with what impacts? Our food

Water resources--sometimes
scarce, often damaged, and

society's survival. This Handbook shows that keeping the food system stable comes at the expense of the environment, especially of water resources and those who consume and manage them. The way the food system

and accountability that would enable farmers to ensure both production and stewardship. Corporate food traders, food manufacturers, and retailers on the other hand operate in markets that make profits and pay taxes.

Read Book Ess SI Paper 1 2013 Markscheme

But these corporations are not contractually bound to utilize highly nutritious, sustainably produced food commodities. The articles in this Oxford Handbook have been written by water and food system scientists and
