Industrial Classification (SIC) codes.

Hexavalent Chromium Exposures and Exposure-Control

...

The National Institute for Occupational Safety and Health has just issued a new recommended exposure limit (REL) for occupational exposure to hexavalent chromium compounds. The NIOSH Criteria for a Recommended Standard: Occupational Exposure to Hexavalent Chromium, Publication Number 2013-128 (January 2013), sets a significantly lower recommended exposure limit, that the Agency admits many industries will not be able to achieve.

NIOSH Lowers Advised Exposure Limit For Airborne ...
