Anyone can make enough to save \$1,000,000 in 3-7 years. Most self-made millionaires are made through business ownership. Many people think about it but never take action, they do not have an idea, they do not have the money, and flat just do not know how. This is a practical book to teach you how to find, start, finance, and get free advice to own and grow your own business. For example, a yardman with no money was worth over \$9,000,000 in 7 years after buying a nursery and growing his business. There are many more stories and lessons, to include how the author went from bankrupt to having his first million dollars in 3 ½ years. This book will change your perspective and put you on the path to financial independence.

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalfindex.

How do the rich get rich? An updated edition of the “remarkable” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture.” —Library Journal

“The Million Pound Bank Note” is a short story by the American author Mark Twain, published in 1893.

The ultimate kids' guide to money: earning it, saving it, and investing it. Hey, kids, want to become a millionaire? Or get a business off the ground? Or save up some money to buy a new bike? All it takes is understanding and putting into practice a few simple strategies and concepts about money: Make it: Learn the ins and outs of scoring a first job, or even better, starting a business. Save it: That's right, millionaires are people who have a million dollars, not people who spend a million dollars. Grow it: Invest and use the most powerful force in the financial universe—compound interest. Next thing you know, you're a bona fide financial whiz on the road to your first million. Now get going! A thorough introduction to finance from the people behind BizKids, How to Turn \$100 into \$1 Million includes chapters on setting financial goals, making a budget, getting a job, starting a business, and investing smartly — and how to think like a millionaire. Plus: a one-page business plan template, a two-page plan to become a millionaire, and a personal budget tracker. “As you follow their plan, your interests will grow—and so will your money. Meanwhile, excuse me, I've got to reread a few sections.”—Bill Nye the Science Guy
