Pramukh Swamiji, one of the most inspiring spiritual leaders of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, is the inheritor of a legacy of enlightened gurus that goes back to the early nineteenth century. Pramukh Swamiji became, through a chance meeting, friend to one of India's most eminent citizens, the eleventh president of India, Dr A.P.J. Abdul Kalam, and together they created an unparalleled fellowship of science and spirituality. In Paratpar, Dr Kalam, with his co-author and pupil Arun Tiwari, maps a journey of self-realization reflected in the compassionate eyes of Pramukh Swamiji, painting a delightfully open-hearted portrait of the fusion of spirituality, science and leadership. His candid vignettes from life on the centre stage of Indian technology and societal missions, Indian politics and world affairs are interwoven with revelations of a profound connection with Swamiji. He describes how his path has been illuminated by Swamiji's words and his inspirational, loving presence. Through the life of Pramukh Swamiji and the transnational work of the BAPS Swaminarayan Sanatha, Dr Kalam traces the contemporary concerns of the Indian diaspora across the world and the emerging Indian identity of a capable, right-thinking and hardworking people. Drawing from the lives of great scientists and creative leaders, Paratpar captures the essence of all religions and is as much a fountain of inspiration and a treasury of wisdom as it is a tribute to the multi-faith, pluralistic Indian society.

Target 3 Billion: Innovative Solutions Towards Sustainable Development: The book talks about the 3 billion people across the globe who live in villages and are often deprived of basic resources. It integrates the challenges and opportunities of the present human civilization and elaborates on providing Urban Amenities in Rural Areas (PURA), a sustainable and environment-friendly system that will uplift the rural masses. The authors pose the question-what can I do to empower 3 billion people? The answers have been provided from the perspectives of citizens, students and senior citizens. India 2020: A Vision for the New Millennium: The authors offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes-the green revolution and satellite-based communication linking remote regions of the country, for instance bear them out. Beyond 2020: A Vision for Tomorrow's India: Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. India can still make it to the list of developed nations in a decade.

On the way from Delhi to Jaunpur in eastern Uttar Pradesh is the dusty town of Badshahpur. Even in this nondescript settlement, people receive money via mobile transfer from family members working in distant cities. There are computer training centres offering diploma courses in Bhojipuri, Hindi and English. Here is an example of India's numerous remote towns that have skipped the stage of basic learning and landed straight into digital literacy as they strive to keep up with the times. In his last book, A.P.J. Abdul Kalam, writing with Srijan Pal Singh, draws upon examples ranging from entrepreneurship in places like Badshahpur to a sophisticated missile programme like Agni to show how it can be 'Advantage India' in the final lap of the journey to 2020-the landmark year by which he had envisioned the country could transform into an economic power. How can the new initiatives-such as Make in India, Swachh Bharat, smart cities and skill development for the youth-be used to unleash the country's vast potential? Advantage India offers the answer-a movement driven by every home and school to educate the new generation and give a fresh meaning to citizenship.

Pramukh Swamiji Maharaj, one of the most inspiring spiritual figures of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, became a friend of the eleventh president of India, Dr A.P.J. Abdul Kalam. Together they created an unparalleled spirituality-science fellowship. In Roohdaar, Dr Kalam and Arun Tiwari map a journey of self-realization reflected in the eyes of Pramukh Swamiji, painting a delightful fusion of spirituality, science and leadership. Through the life of Pramukh Swamiji and the history of the Swaminarayan mission, Dr Kalam traces the great rise of the Indian diaspora across the world. Drawing from the lives of great scientists and creative leaders, the book captures the spiritual essence of all religions and is a tribute to the multi-faith Indian society.

India 2020 is about to become a reality. Are we ready? As Dr Kalam and Y.S. Rajan had contended in their landmark vision document, India 2020, India has steadily moved towards becoming one of the top five economic powers in the twenty-first century. India ' s growth story has seen new opportunities and emerging technologies that make faster and more inclusive growth viable. In Beyond 2020, Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. India can still make it to the list of developed nations in a decade. This timely book provides an action plan for that transformation.

Pramukh Swamiji, one of the most inspiring spiritual leaders of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, is the inheritor of a legacy of enlightened gurus that goes back to the early nineteenth century. Pramukh Swamiji became, through a chance meeting, friend to one of India's most eminent citizens, the eleventh president of India, Dr A.P.J. Abdul Kalam, and together they created an unparalleled fellowship of science and spirituality. In Paratpar, Dr Kalam, with his co-author and pupil Arun Tiwari, maps a journey of self-realization reflected in the compassionate eyes of Pramukh Swamiji, painting a delightfully open-hearted portrait of the fusion of spirituality, science and leadership. His candid vignettes from life on the centre stage of Indian technology and societal missions, Indian politics and world affairs are interwoven with revelations of a profound connection with Swamiji. He describes how his path has been illuminated by Swamiji's words and his inspirational, loving presence. Drawing from the lives of great scientists and creative leaders, Paratpar captures the essence of all religions and is as much a fountain of inspiration and a treasury of wisdom as it is a tribute to the multi-faith, pluralistic Indian society.

A book in memory of the country ' s most loved teacher. Dr Kalam is often remembered as a teacher par excellence, whose words, thoughts and very life were lessons in many ways. This book is dedicated by his student Srijan Pal Singh, who worked closely with him, right till the last day of his life. Recollecting his mentor ' s values, oaths and messages to the youth, Srijan beautifully shares the lessons Dr Kalam taught beyond the classroom. A peek into his daily routine, travels, reflections on various national and international issues, anecdotes and quips, this book helps readers get up-close and personal with the greatest Indian of contemporary times. Featuring many little-known stories and never-before-seen photographs, as well as certain expressions that were classic Dr Kalam, this heart-warming memoir will inspire and enlighten, immortalizing the words and actions of a beloved leader.

Mission India: A Vision For Indian Youth has been written with the intention of challenging the Indian youth to bring about a positive change in the country by 2020. Kalam starts off by telling the readers that there has never been a time in Indian history such as this, where the nation has 540 million youth and 20 million Indians across the globe. He also states that several developed countries have directed their efforts towards setting up research centers across the country, which has benefited scientists, engineers, and professionals from various spheres. Kalam and Rajan tell the readers about their goal to make India one among the five top economic powers in the world by 2020. In the beginning of this book, Kalam presents the readers with a question as to whether India can become a developed country. He then provides insights into the current situation in the country, and explains that this goal is a realistic one. In the subsequent chapters, Kalam and Rajan begin to examine the five industries that need to become reasonably self-sufficient in the coming years, and each chapter tells the readers what can be done to bring a positive change in each industry. They also tell the readers about the current education system in the country, and the latest technology that can be used to improve the quality of education. The readers are also given insights into the present healthcare industry and infrastructural system, which are trademarks of a developed nation. Kalam and Rajan conclude by telling every individual and organization about the role they can play in transforming the nation by 2020
