Just as the practical field of
engineering has theoretical
physics as its underlying base,
the design of systems for
organizing information rests on
an intellectual foundation. The
subject of this book is the
systematized body of knowledge
that constitutes this foundation.

About The Intellectual Foundation
of Information Organization
Integrating the disparate
disciplines of descriptive
cataloging, subject cataloging,
indexing, and classification, the
book adopts a conceptual
framework that views the process
of organizing information as the
use of a special language of
description called a bibliographic
language.
