A horse-bus or horse-drawn omnibus was a large, enclosed and sprung horse-drawn vehicle used for passenger transport before the introduction of motor vehicles. It was mainly used in the late 19th century in both the United States and Europe, and was one of the most common means of transportation in cities. In a typical arrangement, two wooden benches along the sides of the passenger cabin held several sitting passengers facing each other. The driver sat on a separate, front-facing bench, typical

The runit-managed services in Omnibus GitLab generate log data using svlogd. Logs are written to a file called current. Periodically, this log is compressed and renamed using the TAI64N format, for example: @400000005f8eaf6f1a80ef5c.s. The filesystem timestamp on the compressed logs will be consistent with the time GitLab last wrote to that file.

referencing Omnibus, LP, Album, UAS 6743 Another one touted as a lost US psych gem. This one is better than most, a little bit like H.P. Lovecraft and The Freeborne at time, some great bits. 12 tracks and the lack of any really involved instrumentals mean it doesn't really get the chance to go where it could.
