It is caused primarily by bacterial infections. 3 12% of deaths – Preterm births and neonatal disorders

~~What are children dying from and what can we do about it ...~~

We are currently far away from the goal for 2030. Globally 3.9% of all children die before reaching the age of five, which means that on average 15,000 children die every day. 3. And the visualization shows that while the child mortality rate declined around the world there are still many countries in which the mortality rate is higher than 2.5%.

~~Child and Infant Mortality—Our World in Data~~

Third, children suffer and die because natural laws work in regular ways: the gravity that keeps us on planet Earth also enables fatal falls; the fire that warms also burns; the water in which we swim can also drown. Disease, sins, and consistent natural laws, then, are the main reasons that children die.

~~Why Did God Let That Child Die? | Christian Research Institute~~

Deaths that are still unexplained after the post mortem are usually registered as 'sudden infant death syndrome' (SIDS) for babies under a year old. (Deaths of children up to 2 years old are sometimes also recorded as 'sudden infant death syndrome').
